

# 1<sup>st</sup> International Conference on Metrology for Archaeology

Benevento, Italy, October 22 - 23, 2015

## ABOUT THE CONFERENCE

MetroArcheo will involve researchers and operators interested in the valorisation, characterisation and preservation of archaeological heritage with the main objective of focusing the discussion on the production, interpretation and reliability of the measured data. The program is designed to permit the archaeologist to have a complete framework of knowledge of the "measurement" of archaeological heritage, generally faced up in different conferences with restricted areas of interest.

## CONFERENCE TOPICS

The main topics include, but are not limited to:

- Computer Science and Geomatics applied to archaeology
- Archaeogeophysics
- Geoarchaeology
- Production and Food in the ancient Mediterranean
- Archaeobotany
- Archaeometry

## PAPER SUBMISSION

Paper submission will be handled electronically, through the submission page set up on the conference web page: [www.metroarcheo.com](http://www.metroarcheo.com)

The best contributions will be awarded, including the Best Student Paper Award and the Best Paper authored and presented by a woman.

Special sessions will be organized on specific topics, see online at:
